Addendum

Best Breeder Practices Statement

Introduction

1. This consent/agreement statement will be incorporated into the application for registration process to provide members/applicants with full understanding, transparency and intent of the PDCA pertaining to the submission of false or incorrect statements when applying for registration.

2. Member/applicant signature/consent is required to register an animal.

Best Breeder Practices Statement

1. I understand that the accuracy and integrity of the PDCA registry is dependent on the truthful and accurate information submitted by its member/breeders.

2. I understand that it is the duty of the PDCA to protect the integrity and accuracy of the PDCA registry.

3. I understand and agree that although genetic testing is not a criteria for registering an animal in the PDCA registry, as a conscientious breeder, when the parentage of an animal to be registered is in question, either by intentional, accidental or potential exposure to more than one bull, I will assume the responsibility to have genetic testing to verify parentage prior to registering.

4. I understand and agree that the PDCA, at its discretion, may request to have a neutral third party collect DNA samples for testing of any of my registered Dexters to substantiate the information I have submitted.

5. I understand that should the accuracy of the statements I am submitting prove to be false or inaccurate, I agree to allow PDCA to make corrections as they see fit and cooperate fully as PDCA specifies to remedy the conflict, including, but not limited to the reimbursement of expenses required to obtain DNA samples and testing.
